

Valid & Invalid Test Cases Catalog

Project Name:	Flight Booking Application - Manual QA Testing	Author:	Eleni Avgitidou
Target AUT:	travel.agileway.net/login	Date:	September 2026
Version:	1.0	Status:	Complete

1. Valid Flight Selection Scenarios (Positive Testing)

Test Key	Scenario Title	Steps / Test Input	Expected Result	Status
SCRUM-T1	Standard Return Flight Booking	Select Return trip, valid From/To cities, future departure & return dates. Click Continue.	System displays available return flights for selection.	PASS
SCRUM-T2	Standard One-Way Flight Booking	Select One-Way trip, valid origin/destination, valid departure date. Click Continue.	System displays available one-way flights for selection.	PASS
SCRUM-T3	Same-Day Return Flight Booking	Select Return trip with same date for departure and return.	System permits same-day return search without errors.	PASS
SCRUM-T4	Default Flight Selection Types	Verify default selection dropdown values (First trip type, default cities).	Default fields populate with standard predefined options.	PASS
SCRUM-T5	Multi-Passenger Select Flow	Select 2 or more passengers during flight selection step.	System calculates pricing accurately based on passenger count.	PASS
SCRUM-T12	Valid Passenger Info Submission	Enter valid First Name, Last Name, and address details during checkout.	System accepts input and enables payment step.	PASS

2. Invalid Flight Selection Scenarios (Negative Testing)

Test Key	Scenario Title	Steps / Test Input	Expected Result	Status
SCRUM-T6	Past Departure Date Selection	Select departure date prior to current system date.	Validation error: Date cannot be in the past.	PASS
SCRUM-T7	Return Date Before Departure Date	Select return date earlier than selected departure date.	Validation error: Return date must follow departure.	PASS
SCRUM-T8	Invalid Date Entry (Feb 30)	Enter invalid calendar date manually (e.g., Feb 30).	System rejects invalid date format/entry.	PASS
SCRUM-T9	Same Origin and Destination	Select identical city for both "From" and "To" fields.	Validation error: Origin and destination cannot match.	PASS
SCRUM-T10	Missing Departure Date	Leave departure date field empty and click Continue.	Validation error: Departure date is required.	PASS
SCRUM-T11	Missing Return Date (Return Trip)	Select Return trip but leave return date empty.	Validation error: Return date is required for round trips.	PASS
SCRUM-T13	Special Characters in Search Fields	Enter special characters (!@#\$) into origin/destination text boxes.	System sanitizes input or displays invalid format alert.	PASS
SCRUM-T14	Empty Origin and Destination Fields	Leave "From" and "To" fields completely blank and click Proceed.	Booking blocked; validation error displayed.	FAIL

Test Key	Scenario Title	Steps / Test Input	Expected Result	Status
SCRUM-T15	Invalid Passenger Name Inputs	Enter numeric digits or 500+ characters into name fields.	Form submission blocked; inline error shown.	FAIL

3. Invalid Payment Scenarios (SCRUM-T23 to SCRUM-T39)

Test Key	Scenario Title	Steps / Test Input	Expected Result	Status
SCRUM-T23	Empty Credit Card Number	Leave Card Number blank during payment checkout.	Inline error: Card number is required.	PASS
SCRUM-T24	Expired Credit Card Expiry Date	Enter expiry month/year in the past (e.g., 01/2020).	Validation error: Card is expired.	PASS
SCRUM-T25	Invalid Card Length (<16 digits)	Enter 10-digit card number into credit card input field.	Error message: Card number must be 16 digits.	PASS
SCRUM-T26	Non-Numeric Credit Card Characters	Enter letters/symbols into credit card field (e.g., 4111AAAA2222).	Input restricted to numeric digits only.	PASS
SCRUM-T27	Invalid Card Expiry Format	Enter invalid month string (e.g., Month 15/2028).	Validation error: Invalid expiry date format.	PASS
SCRUM-T28	Blank Security Code / Expiry	Submit payment with empty cardholder details.	Validation error triggers on all missing fields.	PASS
SCRUM-T29..38	Payment Gateway Edge Cases	Test declination responses, network timeouts, and partial card strings.	Graceful payment error modal or notification shown.	PASS
SCRUM-T39	Post-Payment Workflow Navigation	Attempt to click return/book another flight button after success.	User provided navigation button to return to booking page.	FAIL

4. Mobile UI & Navigation Cases

Test Key	Scenario Title	Steps / Test Input	Expected Result	Status
SCRUM-T16	Mobile Viewport UI Layout	Open application on mobile device view (width < 480px).	Layout adjusts responsively with no truncated text or overlapping buttons.	PASS
NAV-001	Session Persistence / Refresh	Refresh page during flight selection step.	Session state maintained or redirected gracefully to login page.	BLOCKED
